REQUEST FOR CORRECTED OFFICIAL FILING RECEIPT

Sir:

Appended hereto is a copy of the Updated Official Filing Receipt for the above-identified patent application with corrections indicated in red ink.

Applicants submit that 02/11/2002, indicated on the original filing receipt and the returned postcard, is the correct filing date. For verification, Applicants submit a copy of the original filing receipt mailed from the USPTO on 03/18/2002, indicating the original filing date of 02/11/2002. Additional verification is provided with a copy of the postcard mailed from the USPTO with a date of deposit identified as 02/11/2002 and further identifying the original filing data of 02/11/2002 along with the application serial number. Applicant submits that the filing date be corrected to identify 02/11/2002. Under "Filing Date", delete "06/23/2002" and insert --02/11/2002--;

Applicant notes that although a number of figures are represented in the body and appendices of the application as originally filed, a separate figure section was not presented with the application as filed. Because a separate figure section was not presented the number of figures should be changed from 13 to 0.

Under "Drawings", delete "13" and insert -0--;

Under "Tot Claims", delete "5" and insert --1--;

Under "Ind Claims", delete "2" and insert --1--;

Under "Domestic Priority data as claimed by applicant", insert at the end, --and is a CIP of 10/075,136 11/19/2001--

Because these errors were caused by the Patent Office, it is believed that no fee is necessary. However, if this belief is in error, the commissioner is authorized to charge any fee which may be required, or credit any overpayment to Deposit Account No. 50-2319 (Our Order No. A-70543-2/RMA/KRG).

Respectfully submitted,

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
